Gen3™ MOD

ELEVATOR MODERNIZATION SOLUTIONS

Why Modernize with Otis Now?

ENHANCE SAFETY

Upgrade your system to the latest safety standards and regulations. At Otis, safety is always first.

IMPROVE PERFORMANCE & RELIABILITY

Minimize shutdowns and increase the availability of your elevator. With Otis, you gain access to cutting-edge and connected solutions.

MINIMIZE THE UNEXPECTED

Control the pace, cost and planning of your project thanks to our proven experience.

BOOST SUSTAINABILITY

Manage your impact on the environment by increasing efficiency and reducing energy consumption thanks to our wide range of packages tailored to your buildings' needs.

BRING PASSENGER EXPERIENCE TO THE NEXT LEVEL

Increase the appeal of your property and provide shorter waiting times and more comfortable, accessible, connected journeys thanks to our wide range of contemporary aesthetics and advanced technologies.

Explore the benefits of the Gen3™ MOD solution

Our Gen3™ MOD solution enhances safety, improves performance and reliability, minimizes the unexpected, boosts sustainability and brings passenger experience to the next level.

ENHANCE SAFETY

Reduce tripping hazards while entering and exiting the elevator with +/- 6mm stopping accuracy.

Provide constant monitoring of the system in real time via the Otis ONE™ digital platform.

Detect passengers and prevent doors from closing via door detectors with an infrared safety zone.

IMPROVE PERFORMANCE AND RELIABILITY

Minimize unexpected outages and obsolescence issues with new electronic control system and a gearless machine.

Receive real-time data insights and access remote services.*
*where available

Experience state-of-the-art polyurethane coated steel belts, which are 3X longer-lasting and 20% lighter than conventional ropes.

MINIMIZE THE UNEXPECTED

Plan your budget with our experts from the earliest stages of capital planning to ongoing operations.

Reduce execution downtime while getting the most effective technical solution.

Minimize disruption during modernization with our expert installers and standard packages configured to meet your specific building needs.

BOOST SUSTAINABILITY

Reduce energy consumption up to 50% vs. legacy non-regenerative geared systems, and up to 75% vs. hydraulic ones, with our ReGen™ drive and Gen3™ MOD technology.

Remove the need for oil with our coated steel belt design.

BRING PASSENGER EXPERIENCE TO THE NEXT LEVEL

Delight passengers with various aesthetics and accessibility features.

Provide easy travel & shorter wait times thanks to our intelligent dispatch system.

Reduce vibration (up to 12%) and noise in the car (up to 52%) compared to conventional geared systems.

A new level of connectivity

Otis ONE™ is our IoT solution that connects your Otis and non-Otis elevator to the cloud to deliver a seamless passenger experience. From real-time data insights to remote services, enhance your building's performance.

The right partner with the right solutions

Our Plus, Pro and Full Replacement packages let you decide how to upgrade your building.
